Night Shooting

This Yacht is suitable for a wide range of activities. It can be tailored to your wishes, depending on whether you want to explore Mykonos' beaches or more of the Cycladic Islands. You can throw a party on board for your birthday, you can celebrate your wedding or just celebrate because you feel like it! A business meeting or a conference can become a good excuse to get together with your colleagues, somewhere very different – on a luxury yacht with the finest facilities and top-quality services. Whatever the case may be, we will make it a day that you will never forget. Our well trained and experienced captain and crew are there to fulfil your wishes and treat you to the hospitality that Greece is famous for.

You can visit remote untouched beaches that are only accessible by boat at the south coast of Mykonos and at the islands of Dragonisi, Delos and Rhinia. Enjoy a private dip in the deep blue waters. See a whole new angle of Mykonos, one that you would have never imagined existed.

Come on board and see how elegance meets comfort. The **10 square meters of the glass bottom** of the salon is a stunning feature. It gives you an "inside" view of the magic and history that exist beneath the surface of the sea. The **bar** serves the best drinks & cocktails and we get your taste buds tingling with the meat or fish **barbecue** prepared for you on board. And for those who want a particular meal there is always the catering option.

The heat is not an issue when you are on the Glassbottom Discovery; the interior is **air-conditioned** throughout. And for those who want some sun, the spacious open **upper deck** is the right place to be: lie down or sit and enjoy the picturesque view of the sea and shore, and when the time is right get up and dance. The Yacht has an **audio system** so you can enjoy music throughout the trip. Choose the music that you like from our playlist, bring your own music or even enjoy the services of a professional DJ! The yacht is equipped with hi-tech sound and audio-visual equipment to give you the best possible audio-visual experience.

For the water sports lovers, there are various water toys and activities that they can enjoy and feel the adrenalin in their veins accelerating (i.e. jet-ski, water-board, water-ski, barefoot, parasailing, tubes, flying fish and bananas). You only need to ask and we will make it happen.

Last but by no means least; the Yacht is built to the **highest standards of safety and security**.

You can be sure that our 20 years of experience will make your cruise a memorable one. Every year for the last 2 decades, Mykonos Yachting, based at Mykonos, has offered its services to thousands of guests.
